# Strategy management software

Risk Wizard's **new** fully web based strategy system, RELIANCE, provides Boards, Board Committees, Executives and Senior Management oversight and control of the Governance, Risk and Compliance (GRC) process.

Organisational strategies, business objectives, special projects, trending and roll-up of different or related GRC issues are analysed, monitored and controlled in one flexible and user friendly system.

Key risks, critical compliance items and stakeholder interests/concerns are closely monitored using strategy tolerances and appetites. Modelling and refinement of tolerance sensitivity is easy and can be applied with immediate effect.

## Why Risk Wizard?

### Smart features

- Flexible strategy framework
- Interactive strategy calendar
- Multiple risk exposure appetites
- Tolerance and aggregation dashboard with drill down
- Links to risks and compliance obligations
- File/URL attachments
- Unlimited actions/notes
- Multiple tolerances for key risks

### Immediate benefits

- Identification of stakeholder interests and concerns
- Tolerances for strategic and operational risks
- Real time monitoring of key risks and compliance obligations

### System outcomes

- Governance oversight and control
- Increased Board and executive confidence
- Key risk portfolio tolerance monitoring
- Balanced risk and compliance portfolio

Risk Wizard strategy merges the risk and compliance process to create a balanced risk and compliance portfolio consistent with your organisation's risk appetite. This increases your organisation's competitiveness, saves time and money and is a foundation for good corporate governance.

Call Risk Wizard for an obligation free demonstration.  
It could be the most important call you make all year.
